No.Tourism. 24/2024/10. - The Governor of Meghalaya is please to notify the Guidelines for Community led Tourism Infrastructure scheme for providing financial assistance or grant to local Communities, registered Co-operative Societies for development aimed at enhancing existing tourism infrastructure and spearheading the development of tourist related facilities in their areas by seeking active participation from the communities in the planning and development process.

VIJAY KUMAR D,
Commissioner & Secretary
Govt. of Meghalaya,
Tourism Department.

1 Scheme introduction

Meghalaya's stunning landscapes, from its pristine hills to lush forests and captivating waterfalls, have rightfully earned widespread acclaim, attracting travellers from all corners of the country and across the globe. Beyond the sheer beauty of its natural scenery, Meghalaya is striving to set a benchmark in sustainable and responsible tourism practices. This involves a strategic approach to diversifying destinations, creating new attractions, and catering to a variety of interests while safeguarding its environment and rich cultural heritage.

Recognizing the State's tourism potential, various initiatives have been undertaken to elevate the sector to new heights. It's understood that the involvement of local communities is crucial alongside governmental efforts. Thus, Meghalaya Tourism is launching a forward-thinking scheme that invites villagers, community members, village administrative bodies, and site management bodies registered with Government of Meghalaya to collaborate as partners in the development of their respective regions into thriving tourism destinations.

Under this scheme, communities are empowered to identify development needs aimed at enhancing existing tourism infrastructure and spearheading the development of necessary facilities in their areas. The Government will extend financial assistance of up to **INR 25 lakhs** as a grant to support infrastructure development works.

This initiative not only aims to enrich the tourist experience by ensuring quality infrastructure but also fosters active participation from local communities in the planning and development process. Applicants under this scheme will serve as an extension of the Government, playing a pivotal role in identifying site-specific infrastructure gaps and formulating and implementing plans to address them.

2 Rationale behind the scheme

Meghalaya stands as one of the most sought-after tourist destinations in the country, welcoming approximately 1.2 million visitors annually, with projections indicating a rise to 1.5 million by 2025. Recognizing the pivotal role of the travel and tourism sector as a cornerstone of the state's economy, it is imperative to pursue its development in a comprehensive manner.

In this pursuit, grassroots organizations like co-operative societies and village-level enterprises emerge as key players. Drawing inspiration from the successful co-operative movement within the State, which not only fostered inclusive growth but also institutionalized government-led reforms, their involvement becomes increasingly vital.

With over 47 registered co-operative societies under the Meghalaya Rural Tourism Co-operative Federation Ltd., and numerous tourism societies operating under district administrations, these grassroots entities are actively contributing to unlocking the tourism potential of Meghalaya. They are instrumental in revitalizing tourism sites, managing activities, promoting destinations, and laying a solid groundwork for delivering exceptional experiences to visitors.

This scheme capitalizes on the robust network of enterprises by empowering them to facilitate the transformation of all tourism destinations across the state. It aims to bolster the infrastructure, encompassing clean public conveniences, parking facilities, designated holding areas, ticketing counters, information centres, and market zones, to ensure a seamless and enriching experience for tourists.

3 Scheme objectives

- i. Facilitate participatory development driven by insights from grassroots enterprises.
- ii. Address current infrastructure deficiencies to enhance the overall tourist experience.
- iii. Foster a convenient and safe environment in Meghalaya for all tourists.

4 Scope of the scheme and quantum of assistance

The primary objective of this scheme is to enhance infrastructure at tourist sites and locations. Through this initiative, the government intends to undertake infrastructure projects related to tourism activities in various tourist regions and provide the requisite funding for such developments. Under this scheme, the Department of Tourism, in collaboration with relevant stakeholders, will oversee the implementation of essential tourism-related infrastructure projects as outlined in this document. These projects aim to provide necessary amenities at tourist sites and villages, thereby unlocking their tourism potential. The financial assistance provided under this scheme will be capped at a maximum amount of **INR 25,00,000/- (Rupees Twenty Five Lakhs only)** per village and will be disbursed on attaining predefined milestones. Given the tourism infrastructure needs to be aesthetically pleasing, wherever required, the services of
